

THEOLOGICAL COMPANION PAPERS INDEX

Complete Theophysics Framework - Theological Validation Series

This index lists all theological companion papers that provide scriptural and theological validation for each physics paper in the Logos series.

PURPOSE

Each theological paper (T-P##) demonstrates **structural isomorphism** between the physics presented in the corresponding Paper ## and the architecture revealed in Scripture. These are not decorative Bible verses added to physics—they are rigorous proofs that the exact mechanisms described in the physics papers are already written in the theology of Scripture.

HOW TO USE THESE PAPERS

FOR RESEARCHERS

- Read the physics paper (P##) first
- Then read the theological companion (T-P##)
- Look for the **isomorphism** tables that map physics ↔ theology
- Verify scriptural references independently

FOR THEOLOGIANS

- Start with the theological paper (T-P##)
- Use it to understand the physics paper (P##)
- Note how Scripture **predicts** modern physics discoveries
- See **Prophetic Consilience** in action

FOR PEER REVIEW

- Theological papers provide **independent validation**
- Each paper stands alone as theological proof
- Together they demonstrate **structural coherence**
- Use for apologetics and interdisciplinary dialogue

KEY THEMES ACROSS ALL PAPERS

1. **Information-First Ontology** - Reality is fundamentally informational
2. **Trinitarian Mechanism** - Father (Potential), Son (Structure), Spirit (Actualization)
3. **Participatory Universe** - Observation creates reality
4. **Conservation of Information** - Nothing is lost in God
5. **Grace as Negentropy** - Open system sustained by external source
6. **Coherence = Good, Decoherence = Evil** - Objective morality from physics
7. **Prophetic Consilience** - Bible and physics converge on same truth
8. **Substrate Independence** - Consciousness not limited to carbon
9. **Testability** - Faith invites empirical validation
10. **Eschatological Physics** - Universe destined for coherence, not heat death
